I am a JavaScript Developer whose focus is on React Framework. I have a passion for web accessibility and design systems. I am currently learning typescript and always on the lookout for articles and blogs that helps me improve my frontend development skills as a whole.

## RELEVANT EXPERIENCE

APRIL 2022 – PRESENT

### FRONTEND STUDENT, ALTSCHOOL AFRICA

#### GITHUB REPOSITORIES

- Implemented an api fetch of my github portfolio from github api using react-query to handle the fetch, react-router in routing each repository for further information and also in handling 404 Error and safe-guarded the page against blank page when error occurs by implementing react-error-boundary in handling JavaScript errors anywhere in their child component tree, log those errors, and display a fallback UI.
- Animated the page using framer-motion for animations to engage users or visitors of the page resulting in a 100% positive remark.
- Implemented a search functionality to enable searching for any repository.
- Lazy loaded each page to help improve performance by 65%.

#### TINTS AND SHADES

- Built different shades and tints of colors in any formats e.g (hsl,rgb,hex) using TypeScript and tinycolors library.
- Implemented an export functionality where you can copy the colors in css, tailwind or scss formats.
- Improved the user experience by helping users know the color names of whatever hex color that exists.

#### HACKATHON

- Collaborated with other team members in building an app that helps people safely share content on social-media by scrambling portions they don't want people to see.

- Led the team in also building a dashboard that reflects total population, student tracks, and gender with chart visualizations for each categories. In doing so my team was top 10 out of more than 500 teams that participated.

## OUREDEN CLONE

- Built a clone of the ouredenlife website, a company that offers leading services in cleaning, laundry and food using react, scss and react-query.
- Got familiar with creating reusable components to avoid code repetitions and improve working speed and readability
- Implemented code splitting to improve performance by 60%
- Improved my ability in paying attention to details and building pixel perfect websites.

## EXPERIENCE

2018 – 2021

### PRODUCTION MANAGER, HYCAL LTD

- Ensured customer orders are completed on time and to budget and that quality standards and targets are met
- Collated and analyzed data, putting together production reports for both factory managers customers and thereby reducing loss by 50%
- By ensuring a consistency in product quality product sales increased more than 100% within 6 months.
- Ensured product conforms to the standard procedures of the National Association of Food And Drugs Administration Control (Nafdac) and Standard Organization of Nigeria (SON) through proper quality checks of raw materials and finished products.

## EDUCATION

APRIL 2022

### FRONTEND ENGINEER ALTSCHOOL AFRICA

**NOVEMBER 2015**

**BSC,** ODUDUWA UNIVERSITY IPETUMODU
